

Case Ace v2.0 - Compliance Evidence Pack Index

Organisation: Citizens Advice Wandsworth (CAW)
System: Case Ace v2.0 Client Consultation Recording & Note Drafting System
Version: 2.4.0 (Production Pilot)
Date of Compilation: 2026-09-02
Information Governance Lead: Head of Operations, Citizens Advice Wandsworth
Technical Lead: Lead Systems Architect / AI Technical Lead

1. Compliance Statement & Boundary Notice

[!IMPORTANT]
Declaration Regarding Standards Alignment & Certification:
This Compliance Evidence Pack documents the design, implementation, testing, and operational controls of Case Ace v2.0 against recognized international security and AI standards:
ISO/IEC 27001:2022 (Information Security, Cybersecurity and Privacy Protection)
ISO/IEC 42001:2023 (Artificial Intelligence Management System)
UK General Data Protection Regulation (UK GDPR) & Data Protection Act 2018 (DPA 2018)
Web Content Accessibility Guidelines (WCAG) 2.2 Level AA
Advice Quality Standard (AQS Level 3 - Generalist & Casework)
No claim of formal accredited third-party certification is made anywhere in this pack. This evidence pack provides the factual, empirical, architectural, and procedural basis for CAW's internal Information Governance sign-off, Data Protection Impact Assessment (DPIA), and third-party audit verification.

2. Master Document Register

The Evidence Pack comprises 12 interconnected artifacts detailing every aspect of the Case Ace v2.0 architecture, privacy controls, AI safety measures, empirical benchmarks, and operational risk ownership:

3. Core Architectural Invariants (Constraints C1 to C8)

All compliance documents map back to the eight non-negotiable architectural constraints enforced throughout Case Ace v2.0:

```
graph TD
  C1[C1: Ephemeral Audio in Volatile RAM] --> G1[Gate: Phase 9 Review]
  C2[C2: Zero Unredacted Client Audio to Cloud] --> G2[Verification: Phase 10]
  C3[C3: Local-First Identifier Detection & Redaction] --> G1
  C4[C4: Immediate Acoustic Erasure on Verification] --> G2
  C5[C5: Surrogate Tokenisation Before LLM Egress] --> LLM[Cloud LLM Note Drafting]
  C6[C6: In-Browser Client Re-Identification] --> ADV[Adviser Professional Sign-off]
  C7[C7: Deterministic Single Session Destruction] --> END[All 6 Exit Paths Zeroed]
  C8[C8: Fail-Closed Security Stance] --> FAIL[Abort Egress if ANY PII Survives]
```
