

Phase 1 Acceptance Record & Control Evidence

System: Case Ace v2.0 (Citizens Advice Wandsworth)

Phase: Phase 1 (Repository, Stack, Environments, Dependency Policy, CSP)

Date: 2026-09-01

Status: COMPLETE

1. Acceptance Criteria Verification

2. Control Framework Traceability

ISO/IEC 27001:2022 A.8.20 (Network Security): Strict CSP policy (default-src 'none', no unsafe-inline, scoped wasm-unsafe-eval, strictly allowlisted connect-src).

ISO/IEC 27001:2022 A.8.30 (Supply Chain Security): Exact version pinning across all client and backend dependencies; SBOM generation; zero unvetted packages.

ISO/IEC 27001:2022 A.8.31 (Separation of Environments): Formal environment separation (local, test, pilot) with programmatic enforcement that local and test environments process only synthetic fixtures.

UK GDPR / DPA 2018 (Data Sovereignty): All cloud infrastructure and model endpoint configurations pinned to europe-west2 (London).
