=====
CASE ACE v2.0 - PHASE 8: IDENTIFIER DETECTION VERIFICATION
=====

--- TEST 1: NHS Number Modulus 11 Checksum Algorithm ---
' PASS: Valid NHS number 943 476 5919 passed Modulus 11 validation
' PASS: Invalid NHS number 943 476 5918 correctly rejected by Modulus 11
' PASS: Invalid length (<10 digits) rejected

--- TEST 2: Layer 1 Deterministic Structured Recall (Target: 100%) ---
Structured Identifier Recall: 100.0% (20/20)
' PASS: Layer 1 structured identifier recall is strictly 100.0% (20/20)

--- TEST 3: Layer 2 Named Entity & Third-Party Recall (Target: >= 99%) ---
Unstructured Entity Recall: 100.0% (14/14)
' PASS: Layer 2 named entity recall meets or exceeds target (measured 100.0%)

--- TEST 4: Third-Party Individuals Explicit Protection ---
' PASS: Abusive ex-partner identified and categorized for redaction
' PASS: Landlord identified and categorized for redaction
' PASS: Social worker identified and categorized for redaction
' PASS: Line manager / employer identified and categorized for redaction

--- TEST 5: Layer 3 Special Category Decision Gates & Consequence Cards ---
' PASS: Detected 6 special category elements
' PASS: Consequence disclosure present for "paranoid schizophrenia"
' PASS: Retention privacy risk articulated for "paranoid schizophrenia"
' PASS: Redaction case note impact articulated for "paranoid schizophrenia"
' PASS: Default is retain_clinical_substance for "paranoid schizophrenia"
' PASS: Consequence disclosure present for "sectioned under the Mental Health Act"
' PASS: Retention privacy risk articulated for "sectioned under the Mental Health Act"
' PASS: Redaction case note impact articulated for "sectioned under the Mental Health Act"
' PASS: Default is retain_clinical_substance for "sectioned under the Mental Health Act"
' PASS: Consequence disclosure present for "asylum seeker"
' PASS: Retention privacy risk articulated for "asylum seeker"
' PASS: Redaction case note impact articulated for "asylum seeker"
' PASS: Default is retain_clinical_substance for "asylum seeker"
' PASS: Consequence disclosure present for "no recourse to public funds"
' PASS: Retention privacy risk articulated for "no recourse to public funds"
' PASS: Redaction case note impact articulated for "no recourse to public funds"
' PASS: Default is retain_clinical_substance for "no recourse to public funds"
' PASS: Consequence disclosure present for "fleeing domestic violence"
' PASS: Retention privacy risk articulated for "fleeing domestic violence"
' PASS: Redaction case note impact articulated for "fleeing domestic violence"
' PASS: Default is retain_clinical_substance for "fleeing domestic violence"
' PASS: Consequence disclosure present for "MARAC referral"
' PASS: Retention privacy risk articulated for "MARAC referral"
' PASS: Redaction case note impact articulated for "MARAC referral"
' PASS: Default is retain_clinical_substance for "MARAC referral"

--- TEST 6: Master IdentifierEngine Coordination & Immutability ---
' PASS: Original transcript string was NOT mutated in place
' PASS: Total identifiers detected: 6
' PASS: Layer 1 structured count: 4
' PASS: Layer 2 unstructured count: 1
' PASS: Layer 3 special category count: 1
' PASS: Token map contains all surrogate mappings
```

```
' PASS: Surrogate token correctly maps to original text
' PASS: Projected audio start timestamp aligns with ASR word
```

```
