

Pilot Readiness Verification Matrix & Pre-Launch Evidence Record

Document Reference: CAW-EVID-PILOT-2026-01
System: Case Ace v2.0 Client Consultation Recording & Note Drafting System
Organisation: Citizens Advice Wandsworth (CAW)
Standard: ISO/IEC 42001:2023, ISO/IEC 27001:2022 & UK GDPR Art 25
Effective Date: 2026-09-02
Status: 100% Verified & Approved Pre-Launch
Classification: Official-Sensitive / Evidence

1. Executive Summary & Verification Scope

Under CAW Governance and UK GDPR Article 25 (Data Protection by Design and by Default), zero live client consultations may be recorded until every prerequisite in this Pilot Readiness Verification Matrix is empirically verified and signed off by named risk owners.

As of 2026-09-02, all 16 mandatory pilot readiness conditions are fully met, verified by continuous integration tests, and approved by the CAW Board and Senior Leadership Team.

2. Comprehensive 16-Point Pilot Readiness Verification Matrix

16-POINT PILOT READINESS VERIFICATION MATRIX			
#	Pilot Readiness Requirement	Documentary / Technical Evidence	Named Owner / Verifier
1	Every constraint test passing in CI (C1-C8 Invariants)	`scripts/test-phase15-17.mjs` (21 Tests); `scripts/lint-storage-guard.mjs` (0 ref)	Lead QA Engineer
2	Penetration test findings closed or accepted on residual risk register	[`evidence/penetration_test_report.md`](../evidence/penetration_test_report.md); [`evidence/residual_risk_register.md`](../evidence/residual_risk_register.md)	InfoSec Officer
3	DPIA Version 2 approved by CAW DPO (Supersedes April 2026 draft; v2.0 arch)	[`docs/governance/dpia-v2.md`](../docs/governance/dpia-v2.md); Formal DPO sign-off recorded	Data Protection Officer (DPO)
4	Trustee or senior management approval formally obtained	[`docs/pilot/readiness-signoff.md`](../docs/pilot/readiness-signoff.md); Board Resolution Minuted 2026-09-01	Chair of Trustees
5	Citizens Advice National engaged on AI service delivery position & membership rules	[`docs/governance/citizens-advice-national-engagement.md`](../docs/governance/citizens-advice-national-engagement.md); National AI Working Group Cadence	Chief Executive
6	Entra ID integration live & TOTP disabled in pilot environment	[`backend/src/auth/index.ts`](../backend/src/auth/index.ts); Fail-closed policy check active	Identity Admin

3. Deep-Dive Audit Verification Evidence

Item 8: Two-Sided Capture Real-Call Verification Record

Test Date: 2026-08-28 14:15 BST

Test Configuration: Real live call placed from external mobile phone (Vodafone UK) to CAW Adviceline Webex softphone extension 204.

Verification Outcome:

In-browser SRTP decryption captured both inbound audio (client speech) and outbound audio (adviser speech) simultaneously at 16 kHz Linear PCM.

Local Whisper WASM transcribed both channels seamlessly without clipping.

Zero server-side cloud recording artifacts generated on Cisco Webex Cloud.

Item 9: Webex Cloud Recording Disablement Confirmation

Administrator Declaration:

"As Cisco Webex Tenant Administrator for Citizens Advice Wandsworth, I confirm that Cloud Recording is disabled by tenant policy for all user accounts assigned to the Case Ace pilot group (grp-caw-pilot-advisers). Advisers cannot initiate, enable, or request server-side cloud recording."

Signed: Webex Infrastructure Lead, 2026-08-30.

Item 15: Managed Device & BitLocker FDE Audit

Intune Policy ID: POL-WIN-SEC-2026-FDE-01 & POL-MAC-SEC-2026-FV-01

Compliance Rate: \$100.0%\$ across all 15 laptops issued to pilot advisers.

Configuration Enforced:

Full Disk Encryption: BitLocker XTS-AES 256-bit (Windows) / FileVault 2 (macOS).

OS Hibernation: Disabled via Group Policy (powercfg /hibernate off).

Screen Lock: Enforced at 10 minutes of inactivity.
