

Citizens Advice National Engagement & Membership Compliance

Document Reference: CAW-GOV-NAT-2026-01
System: Case Ace v2.0 Client Consultation Recording & Note Drafting System
Organisation: Citizens Advice Wandsworth (CAW)
Stakeholder Body: Citizens Advice National (CitA) AI & Technology Working Group
Effective Date: 2026-09-02
Status: Formally Approved Governance Briefing
Classification: Official-Sensitive / Governance

1. Executive Summary & Purpose

Citizens Advice Wandsworth (CAW) operates as an independent registered charity affiliated with the National Association of Citizens Advice Bureaux (Citizens Advice National / CitA) under a formal Membership Agreement. This document records the formal engagement between CAW and CitA National on the use of Case Ace v2.0 as an assistive AI note-drafting tool in frontline advice delivery. It articulates compliance with the CitA Membership Scheme, information governance standards, Casebook CRM integration boundaries, and our ongoing reporting cadence.

2. Membership Agreement & Quality Framework Alignment

CITIZENS ADVICE NATIONAL ALIGNMENT MATRIX	
CitA National Principle / Standard	CAW Implementation in Case Ace v2.0
1. Advice Quality Standard (AQS)	All AI drafts structured to strict AQS Level 3 schema (*Confirmation of Enquiry*, *Advice*, *Action Plan*).
2. Human Professional Accountability	Advisers maintain sole, non-delegable responsibility for every note. Mandatory review gate & affirmative sign-off.
3. Client Confidentiality & Trust	Volatile-only in-memory processing. Zero client audio persists to disk. Zero unredacted PII egress to cloud.
4. Casebook CRM Boundaries	Case Ace does not access or modify Casebook database APIs directly. Notes are transferred via clipboard by adviser.
5. Equality & Impartiality	Dual-pass ASR & audio scrubber mitigates accent/speech disparities. Service is 100% voluntary with manual parity.

3. Key Engagement Milestones & CitA National Feedback

timeline
title CitA National AI Engagement Timeline
2026-03-15 : Initial Architectural Briefing to CitA Head of Technology
2026-05-10 : Information Governance Review with CitA National DPO
2026-06-22 : Casebook CRM Interface Boundary Protocol Agreed
2026-08-14 : Presentation to CitA National Service Delivery Working Group
2026-09-02 : Pilot Readiness Notification & National Reporting Cadence Established

Key Clarifications Agreed with CitA National:

Casebook CRM Boundary: Case Ace operates as a standalone client-side helper. It requires no modifications, API keys, or backend integrations with Casebook CRM. The qualified adviser acts as the authoritative human airlock between Case Ace and Casebook.

National Branding & Trust: The pilot is clearly presented to clients as an assistive note-taking tool designed to increase adviser eye contact, backed by the approved CitA Client Consent Script.

Training Material Sharing: All training modules on Automation Bias, Review Gate Verification, and Easy-Read Consent are shared openly with CitA National for potential federation to other local network bureaux.

4. Reporting Cadence to CitA National AI Working Group

During the 6-week pilot and subsequent phases, CAW will provide bi-weekly reporting to CitA National containing:
Aggregate Volume: Total number of Case Ace assisted consultations across advice categories.

AQS Level 3 Audit Scores: Blind quality audit results comparing AI-assisted vs manual case notes.

Adviser Time Metrics: Measured time savings in casework authoring.

Redaction Performance & Overrides: Anonymised telemetry on entity detection accuracy and adviser override frequencies.

Equality & Client Feedback: Summaries of client exit surveys and accessibility feedback.

5. Formal Endorsement & Communication Record
